

# PORTABLE TARGETS

PRODUCT CATALOG

[Store.ActionTarget.com](http://Store.ActionTarget.com)

A man with short brown hair, wearing a blue and white plaid shirt, is seen from behind, aiming a black rifle. He is standing in a grassy field with a blurred background of trees and a hill. In the distance, a black target stand holds a row of blue plates. A single bullet is captured in mid-air above the plates. The scene is brightly lit, suggesting a sunny day.

## EXPERIENCE THE THRILL

There is nothing quite like shooting on steel. The distinctive “clang” provides immediate feedback, the reactive nature of the plates offers instant gratification, and the competitive nature of the targets is second to none. Want to see what you’ve been missing? Shoot on Action Target steel and change the way you think about target shooting.

## ACTION TARGET ADVANTAGE

- All Action Target steel targets use through hardened AR500 or AR550 steel to make the target last longer and reduce pitting and pocking
- Action Target steel targets have flat surfaces which create predictable and safe bullet splatter patterns
- All Action Target steel targets are angled between 15 and 45 degrees to dissipate the energy of the bullet and direct splatter toward the ground.

## CATALOG QUICK GUIDE

Every shooter has their own reason for shooting, and Action Target portable targets are made to accommodate all of them. This catalog provides all the information you need to select your perfect target configurations. Use the diagrams and information in this guide to find the best steel, target stand, and features for your needs.

## FUN THAT LASTS

Action Target's rimfire line of steel targets has something for everyone. From dueling trees and plate racks to reactive and static targets, the rimfire line is an economical and fun option for shooting .22 at close distances. Shooters of all ages and skill levels can improve their shooting and have fun in the process.

### RIMFIRE BULLSEYE

AT-107 / ¼" AR500 /

- 12" circle head plate
- 4" reactive steel plate
- Highly portable design
- Patent pending reactive plate

STAND	SKU
No Stand	801-15875
Evil Roy	AT-107

#### QUALITY IS IN THE DETAILS

All of Action Target steel targets hide their brackets behind a totally flat shooting surface using a number of innovative designs, making the targets safer to shoot.

### RIMFIRE DUELING TREE

AT-104 / ¼" AR500 /

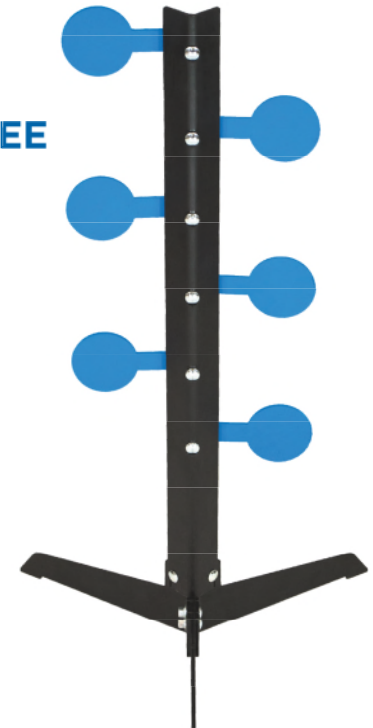

- 38" tall
- Six 4" diameter reactive plates
- Gravity reset reactive plates
- Free standing
- No-weld design
- Highly portable design

#### CUSTOMER TESTIMONIAL

"This target is 'love at first sight.' Buy one, you will not be disappointed. Not only does it outperform all other Rimfire dueling trees I have used, it has the single most satisfying sound when the bullet hits the steel."

—Dane H. / Oregon

## RIMFIRE SPINNING JACK

AT-105 / 1/4" AR500 /

- Reactive spinning action
- Fun for all ages
- 2.5" target shapes
- Detachable footstep included
- Patent pending

### CUSTOMER TESTIMONIAL

"This target is a BLAST! Very light and easy to assemble and use. I took it to the outdoor range and had no trouble getting it set up and shooting away. Love the challenge of small targets, spinning sight picture, and having to evaluate the best shot to spin it. GREAT, target!"

—Mark B. / Florida

## RIMFIRE BUFFALO

AT-106 / 1/4" AR500 /

- 15"x18" buffalo head plate
- Reactive 3.5" swinging target plate
- Back-and-forth swinging action
- Highly portable design
- Patent pending reactive plate

"I've used Action Target for years. They make the best targets for competition training."

## RANDI ROGERS

7-time Ladies IDPA  
Indoor National Champion

## COMPETITION REDEFINED

Action Target partnered with the International Defensive Pistol Association (IDPA) to bring competition shooters the ultimate steel target for training. "We were really excited to work with Action Target on this project because of their ability to take our requirements and come up with an innovative solution," IDPA Executive Director Joyce Wilson said. "To help shooters focus on accuracy, we diminished the sizes of the down zero zones by two inches which can lead to better scores in competition."

## NEW PT IDPA PRACTICE TORSO

AT-221 / 3/8" AR550 /

The PT IDPA Practice Torso is the official steel practice target of the International Defensive Pistol Association (IDPA) and one of the most effective training tools for competitive shooting. It features a regulation torso shape including the -1 and -0 scoring zones with reactive swinging plates for the -0 head square and center mass circle which are both reduced 2 inches to encourage more accurate shooting. The reactive zones are also great for precision rifle training.

- 12"x25.5" Torso
- Reactive 3" Scoring Square
- Reactive 6" Scoring Circle
- Patent Pending design

### INNOVATIVE DESIGN

The new patent pending design of the target plate doesn't require any additional parts or tools to function. Simply slide it into place and you're ready to shoot.

### INNOVATIVE REACTIVE PLATES

Action Target's reactive plates are designed for safety and simplicity. The plates can be removed without tools to easily repaint, while no bolts on the target keeps everyone safe.

### CUSTOMER TESTIMONIAL

"You guys make some of the best targets I've ever seen. They're sturdy, dependable, portable, and they can take just about anything I shoot at them. I'm definitely an Action Target customer for life."

—Brian B. / Colorado

## BUILT FOR THE BIG GUNS

Looking for a target that can handle high caliber ammo and not destroy the target in the process? Look no further. The E-50 Silhouette provides instant feedback from as close as 100 yards. The patent pending stand design ensures stability, and the easy assembly will make you want to shoot this target over and over.

ACTION TARGET  
YEAR 1988

NEW

## E-50 SILHOUETTE

AT-128 / 1/2" AR550 /

The E-50 Silhouette is the first commercially available target from Action Target capable of handling .50 BMG and is the only steel target on the market made from 1/2" AR550 steel. Designed according to U.S. Marine Corps steel target specifications with a 20-degree angled shooting surface and standard military E-type silhouette proportions, this target is

- Ideal for all calibers up to .50 BMG
- 64" height
- 146 lbs.
- 40" x 19.5" torso
- Patent Pending design

made for everything from heavy military firearms training to long-range rifle shooting. With a patent pending stand design that keeps the target grounded even with the largest calibers, you don't need to worry about using sand bags to keep it upright or going downrange to reset it.

## PT DUELING TREE

AT-101 / 3/8" AR500 /  
AT-102 / 3/8" AR550 /

- 5' height
- 6" diameter reactive swinging plates
- Reactive back and forth dueling action
- Great training tool for stress induction
- Leans forward to control splatter
- No-weld target plates
- Gravity reset

## SHOOT TO WIN

The PT Dueling Tree is one of Action Target's most popular targets, and it's easy to see why. Spend time improving your accuracy or challenging your friend to a match. The armored steel ensures the target can withstand thousands of rounds, so you can keep shooting until you come out on top.

### WHY TARGETS LEAN FORWARD

Action Target's steel targets lean forward to serve many purposes. This makes them safer, last longer, and work better by better dissipating bullet energy, creating predictable bullet splatter patterns, and using gravity to reset reactive plates.

## PT PLATE RACK

AT-103 / 3/8" AR550 /

The PT Plate Rack provides shooters the opportunity to test their skill in target acquisition. With its standard 8" target plates spaced over a 9' width, the PT Plate Rack provides the challenge of speed and accuracy like no other. The cable-pull reset allows you to continue shooting without ever having to go downrange to reset the target.

- 4'6" height x 9' width
- Six 8" circle head plates
- Reactive knock down action
- Smooth cable-pull reset
- Angled splatter deflector plate

UPGRADE

### HEAD PLATE ACCESSORY

Add variety to your shooting with additional head plates.

"I shoot tens of thousands of rounds each year, and I have found that to get to that highest level of performance you need the best equipment. I use Action Target steel targets because they are the best you can get."

**ROB LEATHAM**  
24-Time USPSA National Champion  
5-Time IPSC World Champion

## A PROVEN TRAINING CLASSIC

Popper style targets have been around for decades, and there's a reason why. Due to their adjustable sensitivity that replicates real life threats, they remain a relevant training tool today. Action Target makes one of the best poppers in the industry. Created with competition and training in mind and built for durability, the popper is a must have for any serious shooter.

### PT PEPPER POPPER

AT-213-1 / AR500 /  
AT-213-2 / AR550 /

- Reversible plate for longer life

**RUBBER FEET ATTACHMENT**

- Attaches to any PT Popper target
- Protects floors from sustaining damage

## PAPER TARGETS SIMPLIFIED

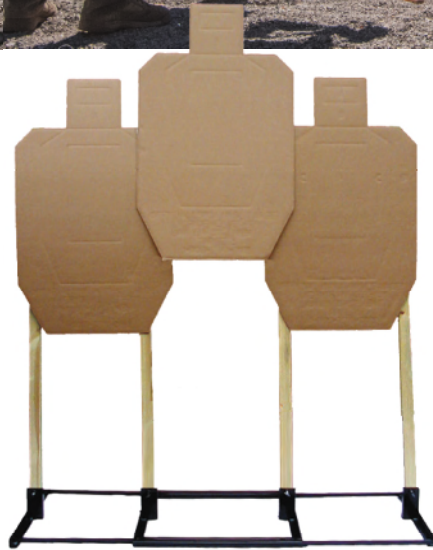

Despite the many advantages of shooting steel, sometimes you still need to shoot paper targets. Whether it's for qualification or ease of use, Action Target's target stands are up to the task. A variety of stands are available to fit any budget or target material.

### ECONOMY PAPER TARGET STAND

#ECNO /

- Works with any target size
- Simple assembly
- Ideal for qualification and training
- 2x2 wood strips required (not included)

### MULTIPLE TARGET STAND

SD3T /

- Can accommodate up to 3 targets
- Works with any target size
- Ideal for qualification and training
- Collapses down to 23.5" x 18"
- 2x2 wood strips required (not included)

### PT HOLD

AT-115 /

- Stable platform
- Great for uneven terrain
- Works with any target size
- Simple assembly
- Easy to pick up and move
- Ideal for qualification and training
- 1x2 wood strips required (not included)

### PT HOLD PLUS

AT-220 /

- Stable platform
- Great for uneven terrain
- Works with any target size
- Simple assembly
- Ideal for qualification and training
- Easy to pick up and move
- No wood or staples required
- 1', 2', 3', or 4' stand height options

## PT DROPPER

AT-116 / 3/8" AR500 /

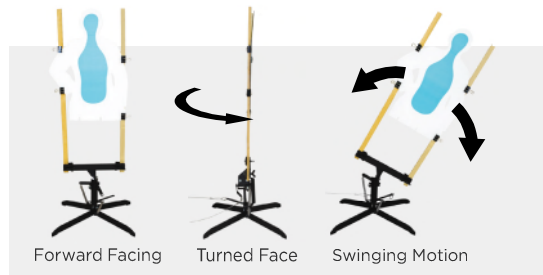

- Responds only to accurate shots
- Adjustable hit zone
- Reactive dropping action
- Better training with paper and cardboard targets
- Stable platform

## PT TURN SWING

AT-114 /

- Both turning and lateral swinging actions
- No power required
- Simple pull cable controls
- Multiple units can be linked together
- Ideal for qualification and tactical training
- Pulley, anchor stakes, and rope included

## PT SWINGER

AT-113 /

- Ideal for tactical training scenarios
- Lateral swinging action
- Smooth motion
- Low profile bullet shedding stand
- Multiple activation options
- Stable platform

## EFFECTIVE TRAINING

Action Target's portable runner was created with law enforcement agencies in mind. It simulates real life scenarios with a system that's portable, economical, and effective. This system is ideal for smaller agencies with limited resources and facilities and is a great training tool for any officer.

## PORTABLE RUNNER

AT-218 / 12V BATTERY /  
AT-219 / 120V AC /

- Highly portable design can be used in remote locations
- Easy and quick set up and take down
- Compatible with any cardboard target
- Add a runner rod to utilize 3D targets
- Two 8 foot 2x4's required (not included)
- Simple hand held controller
- Variable speed control (optional)
- Lateral and charging motions
- 80' maximum span
- Carrying case included

## 3D TARGETS

AT-117 / STAND /  
AT-119 / 15 TARGET PACK /

- Reactive falling action
- Responds only to accurate shots
- Each target lasts for hundreds of rounds
- Tactical arms included (gun, fist & knife)
- Great for moving target drills
- Can be set up with various hit zone options
- Ideal for tactical training scenarios
- Compatible with the Portable Runner system

## ESSENTIAL SAFETY

Action Target's double walled clearing traps make dry firing a safe and simple process. These traps are used to check handguns and rifles with complete confidence. The trap's armored steel chamber filled with composite rubber will safely contain any unexpected shots fired.

### TABLE TOP CLEARING TRAP

AT-122 / HANDGUN /

- Can handle about 100 rounds before mining
- Easy to carry and move
- Handgun rated

### FULL SIZE CLEARING TRAP

AT-123 / RIFLE /

- Can handle about 100 rounds before mining
- Rifle rated up to .223 and .308

### MOUNTABLE CLEARING TRAPS

SCT-RIFLE / RIFLE UP TO .308 /  
SCT-PISTOL / HANDGUN /

- Replaceable containment packs
- Can be mounted to nearly any surface
- Can handle about 10 rounds before replacing containment pack
