

Premium class shooting range systems

Since more than 40 years the name „Eigenbrod“ stands for high-quality shooting range systems which are designed for a long lifetime. Our systems are produced carefully by hand to customer's specifications from enhanced materials. Our systems are maintenance-free even at continuous utilization. All this assures a perfect functioning even under the most adverse conditions. So the shooter can concentrate on what's most important: shooting!

TARGET TRANSPORT SYSTEM ELG 10-88

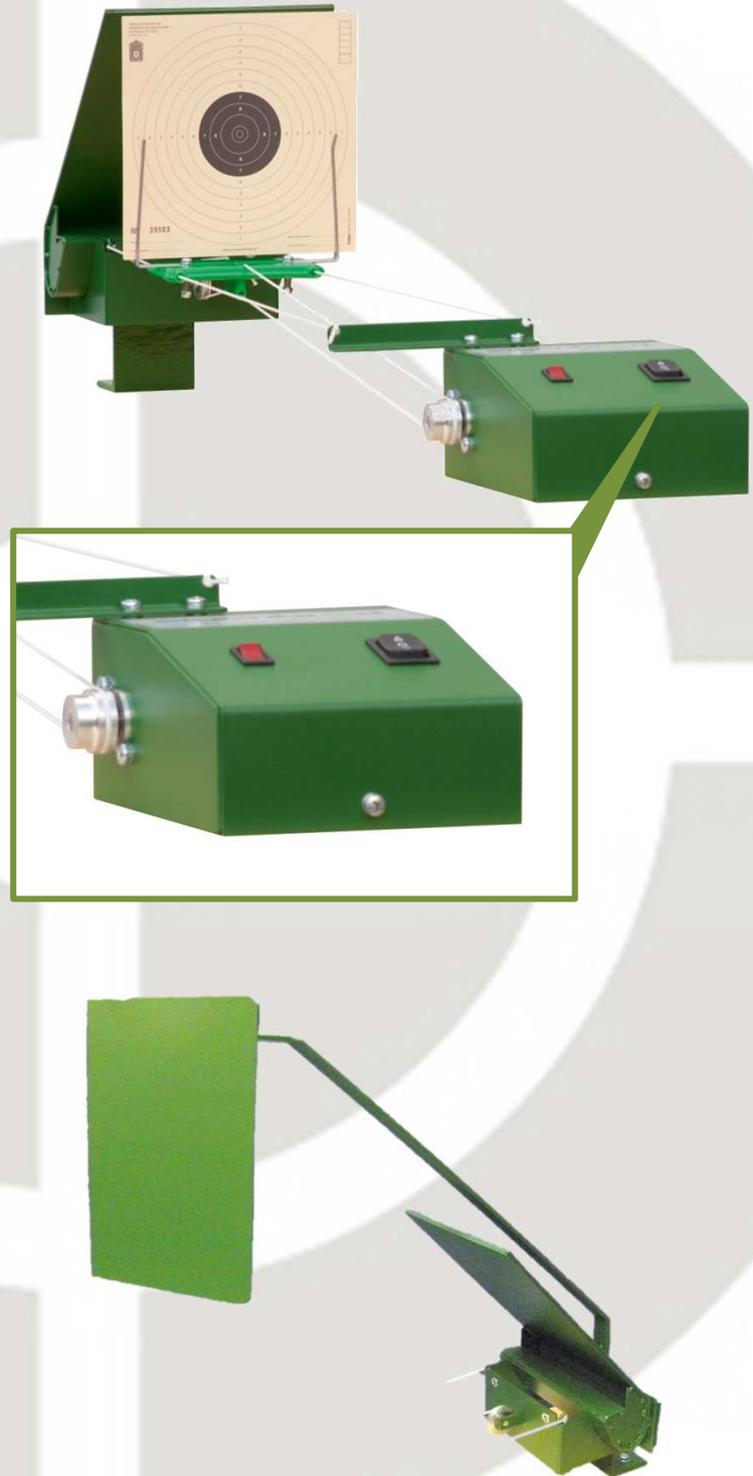

The target transport system „ELG Super 10-85“ provides the opportunity to use just one system for shooting with air rifle and air pistol at the distance of 10m as well as for other country specific disciplines at distances up to 15m.

Technical details:

- System made of robust steel
- Scratch-resistant and weather-proof lacquer
- tear-proof bearer cable and hauling cable, smoothly adjustable and removable
- System runs with 230V AC, special voltages on demand (e.g. 110V)
- System contains a demountable and silenced butt with lead reservoir
- Special breaking system for target holder to attain each end position silently
- Easy operation with one robust button

Optional:

- ✓ Additional noise insulation made of rigid plastic on the butt
- ✓ Special illumination with connector plug
