

## A-320V3A 20-Watt 30-512 MHz Amplifier

### Overview

We designed this amp specifically to meet the needs of the warfighter. Weighing just 24 ounces, the A-320V3A delivers heavyweight performance and the reliability needed for combat operations. The A-320V3A features self-diagnostics with dimmable system indicators to monitor power and performance status. This solution is radio-agnostic and compatible with most 30-512 MHz military radios. The A-320V3A is SRW, EPIXS, HAVEQUICK & SINCGARS compatible, and DAMA ready.

With over 10,000 units deployed in the past decade - the combat-proven A-320V3A has become a favorite of operators in the field.
